

European trade & investment mission to North Korea (28 Aug – 3 Sep 2016)

Rotterdam, 10 June 2016

The Democratic People's Republic of Korea (DPRK, also known as North Korea) finds itself at a new era of international economic cooperation, and it especially welcomes business with Europe. The DPRK is offering various products and services to export markets, while the country is also in need for many foreign products and investments.

In the current financial and economic situation, European companies face many challenges. They must cut costs, develop new products and find new markets. In these fields, North Korea is an interesting option. Under the new leader Kim Jong-un, there has been a greater emphasis on the economy, and several economic reforms are being enacted. State-owned farms and factories are having greater autonomy, and there is a growth in the number of special economic zones in order to attract foreign investors.

There are several sectors, including renewable energy, garments, shipbuilding, agro business, fishing, horticulture, logistics, restaurants and Information Technology, that can be considered for trade and investment. North Korea is competing with other Asian countries by offering skilled labour at very low monthly wages. In particular firms with production facilities in China, where the wages are rising fast, are currently investigating alternative options in North Korea.

In case you are interested to consider North Korea as a production location, the following sectors are described in more detail:

- Textile and garments: www.gpic.nl/Making-garments-in-North-Korea.pdf
- Software and ICT: [www.gpic.nl/outsourcingInNorthKorea\(CACM\).pdf](http://www.gpic.nl/outsourcingInNorthKorea(CACM).pdf)
- Example of animation (video): www.youtube.com/watch?v=ihaRfjbKvF4.

For examples of investment opportunities:

- Tourism (investment project for the Wonsan-Kumgang International Tourist Zone): www.gpic.nl/investment-projects-in-North-Korea.pdf
- Floriculture project: www.gpic.nl/DPRK-Floriculture.pdf

- Options inside EDZ's (Economic Development Zones):
www.gpic.nl/Economic-Development-Zones-North-Korea.pdf.

For companies interested in working with North Korea, one of the immediate challenges is finding a suitable business partner, since collecting information is not easy. Local enterprises mostly do not have a presence on the Internet, and access to them is not easy. The solution: join our business mission! From 28 August to 3 September 2016, a general trade & investment mission takes place in order to explore new business and investment opportunities. This tour is open for participants from all European countries, from various business sectors.

New buildings in Pyongyang

Our previous economic missions to Pyongyang were informative and successful. The participants found the program, with general and tailor made business meetings and company visits, interesting and well-varied. In addition, there were opportunities for informal meetings.

Before the start of the tour, in Beijing, the plan is to take part in the seminar: "Doing business with DPRK". This event will also be open for external participants. After the trip to North Korea, we will return to Beijing, where you can extend your stay in China.

Business mission autumn 2016: a short overview

Members of our business delegation will be able to discuss trade opportunities in several areas, including light industry (e.g. textiles, garments), agribusiness and Information Technology. We will also receive information about investment opportunities in a number of sectors, and several projects will be offered.

Taking part in a general business mission is a very informative way to get a first glance of business opportunities in North Korea, and to meet new potential business partners. Participation is also useful for those Europeans already trading with DPRK, since it gives them an easy option to increase the number of Korean business partners.

Sunday 28 August 2016

Arrival of European participants in Beijing (note: arrival at an earlier date is possible). In the evening, we will have an informal welcome reception and dinner at a local restaurant. Introduction to the business mission.

Monday 29 August

In the morning: visa collection at the DPRK Embassy in Beijing. Receiving Air Koryo airplane tickets. Afternoon: available for an individual program. Tentative: attending the afternoon seminar: "Doing business with DPRK". Several speakers will address various aspects of trade and investment in DPRK (including the sanctions, such as UNSC 2270).

The new airport of Pyongyang

Tuesday 30 August

Transport from the hotel to the airport. Departure from Beijing to Pyongyang, using the national airline Air Koryo. Upon arrival, we meet representatives of the DPRK Chamber of Commerce. Transport will be arranged to the hotel in Pyongyang. The program of the mission will be handed

out to the participants, after which a welcome dinner will take place.

Wednesday 31 August – Friday 2 September

Company visits and meetings with representatives of North Korean companies, depending on the specific wishes of the participants. Arranging these visits will be done by the DPRK Chamber of Commerce. Additional meetings can also take place in our hotel.

During our stay, we will also meet European business people working and living in DPRK.

In the last afternoon, there will be some time made available for informal activities, such as a citytour in and around Pyongyang, a visit to an art gallery, etc.

Saturday 3 September

In the morning, we will depart from Pyongyang to Beijing. Upon arrival, participants can take a connecting flight to Europe, or continue their stay in China.

Friendly and informative business meetings

Some examples of company visits

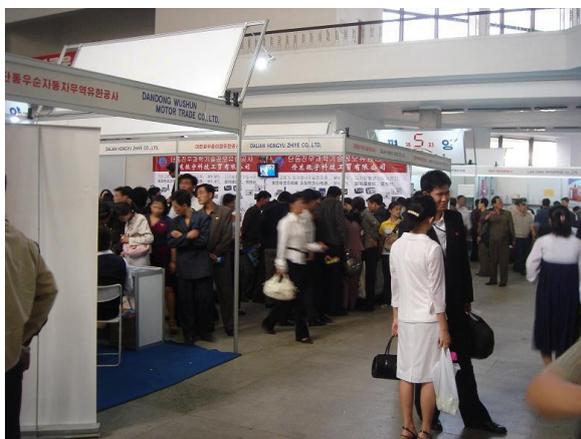

Visit to a greenhouse

Visit to software company

Visits to garments and fabrics factories

A visit to the Pyongyang International Trade Fair

A booth at the fair of a European exhibitor

At a local restaurant - an excellent place for informal business discussions

Visit to an animation studio

At a graphics design company

Organizer of the 2016 business mission to DPRK

The Korean organizer of the mission:

DPRK Chamber of Commerce
(International Relations Department)
Jungsong-dong, Central District
P.O. Box 89, Pyongyang, DPR Korea

In cooperation with:

GPI Consultancy, the Netherlands

Established in 1995, GPI Consultancy is a specialized Dutch consultancy firm in the field of offshore sourcing. We arrange business missions to various Asian countries, including DPRK.

It is also possible for us to arrange individual business missions, with a focus on just one specific sector (e.g. garments, ICT, agriculture), with participants of a single company only, and with tailor made visits. For detailed information about such a mission, please contact Mr. Paul Tjia, founder and director of GPI Consultancy (info@gpic.nl).

Paul Tjia (together with American professor Erran Carmel) is the author of the handbook: "Offshoring Information Technology - Sourcing and Outsourcing to a Global Workforce" (Cambridge University Press), available at Amazon: www.amzn.to/xegoU9. It contains a section on North Korea.

Logistics / arrangements of the tour

- This is a general mission, so the delegates will be from various business sectors. However, we will try to limit the size of the group. The final program will be arranged in consultation with participants and local organizations.
- All European participants will travel on their own to and from Beijing; the date of arrival and the choice of the hotel in Beijing are up to the participant (note: we will propose a hotel which is centrally located). The participants will make their own reservations and will pay the costs involved directly to the airline and to the hotel (or use a travel agency).
- Participants will arrange before the trip a visa for China (a double entry visa in case the trip will be continued in China) and insurances (e.g. travel; cancellation). Also medical vaccination – if required. Note: China offers 72 hours of visa-free transit for foreign visitors who are transiting through Beijing.
- For business representatives, the participation fee for the North Korea part is 1980 Euro per person (excl. VAT, if applicable) and will be invoiced by GPI Consultancy. This fee

includes organizational costs, visa for North Korea, matchmaking services, company visits, guides and translators and transportation within Pyongyang. This fee does not include the air ticket from Beijing to Pyongyang v.v. (around 500 Euro), meals (inexpensive) and the hotel in Pyongyang (around 80 Euro per night).

- The processing of the visa-applications by North Korea can take one month. In case of interest: please contact us as soon as possible, and we will send you a registration form.
- The organizers have the right to cancel or postpone the mission in case of an insufficient number of registrations, unexpected events (e.g. political developments or the closure of the Korean border due to viruses) or calamities.
